

Recreational Diving Medical Declaration

New divers should not commence diving training and existing divers should not dive until they have completed this medical declaration or had a medical examination confirming fitness to dive.

Fees for a medical examination are the responsibility of the diver.

NOTES TO DIVER: It is necessary for members of the above organisations to complete this form annually on renewal of membership. In the interim if a diver has a new health problem that results in a "Yes" as below they must contact a UKDMC Medical Referee for advice. Exceptional fitness is not essential; both men and women can dive safely provided they are reasonably fit. If you have any queries then please contact a UKDMC Medical Referee (listed on <http://ukdmc.org>).

IMPORTANT – FAILURE TO DECLARE A MEDICAL CONDITION WILL INVALIDATE YOUR INSURANCE. YOU MUST DECLARE ANY MEDICAL PROBLEM PAST OR PRESENT OR ANY CHANGE IN HEALTH AS THIS MAY AFFECT YOUR FITNESS TO DIVE.

	Have you ever had or suffered from -	Yes	No
1	Diseases of the heart and circulation including high blood pressure (or taking tablets for high blood pressure), angina, chest pains or palpitations?		
2	Chest or heart surgery?		
3	Significant bleeding or blood disorders?		
4	Asthma, chronic obstructive airways disease or ever used an inhaler?		
5	Collapsed lung, pneumothorax or any other lung injury or problem (except COVID-19)?		
6	A requirement for Medical Referee assessment in the guidance on return to diving after COVID-19 at ukdmc.org ?		
7	Blackouts, fainting or recurrent dizziness?		
8	Abdominal surgery, ileostomy, colostomy or repair of a hiatus hernia?		
9	Epilepsy or fits?		
10	Disease of the brain or nervous system (including strokes or multiple sclerosis) or recurrent migraines?		
11	Back or spinal surgery or any serious back problems?		
12	Psychological illness of any kind, fear of small spaces, suicidal thoughts or panic attacks?		
13	Diabetes? All diabetics require a medical & need to complete Diabetes forms A & B annually (see ukdmc.org)		
14	Cancer, malignant disease or a tumour?		
15	Decompression illness, immersion induced pulmonary oedema or other diving related problem?		
16	Do you currently have a requirement for any prescribed medication (except the contraceptive pill)?		
17	Do you have a BMI of 40 or greater? To calculate BMI go to www.nhs.uk		
18	Have you had regular ear problems in the past 10 years?		
19	Have you had a head injury with loss of consciousness in the past 5 years?		
20	Have you had any problem with alcohol or drug abuse in the last 5 years?		
21	Have you ever been refused a diving medical certificate or life insurance or been offered special terms?		
22	Are you currently receiving medical care or have you consulted a doctor in the last year other than for mild self limiting illnesses that have completely resolved? (Please discuss any symptoms of the upper or lower respiratory tract with a UKDMC Medical Referee).		
23	Are you concerned about any other medical issue that has not been covered by the questions on this page?		

I, the subject of this medical, am signing to certify that I have declared everything and understand that failure to do so may put myself and/or buddy at risk of harm or death.	Signed:	Date:
--	---------	-------

(Signature of Parent or Guardian if under the age of 18)

IF YOU THINK YOU MAY BE PREGNANT OR ARE TRYING TO GET PREGNANT SPEAK TO A UKDMC MEDICAL REFEREE ABOUT THE IMPLICATIONS FOR DIVING

Divers answering 'Yes' to any question above must seek advice from a UKDMC Medical Referee. Please be aware that many UKDMC Medical Referees are in full time employment so allow a reasonable amount of time for your enquiry to be processed.

Only page 1 is required for divers answering No to all questions - if answering Yes complete pages 2 and 3 which can be downloaded from ukdmc.org

UK Diving Medical Committee <http://ukdmc.org>

IMPORTANT - if you have answered yes to any question on page 1 please give details below.

--

I authorise any doctor who has attended me to disclose my relevant medical history, if requested, to the UKDMC Medical Referee.

Signed:

Date:

IMPORTANT - pages 1 and 2 are confidential between the diver and the UKDMC Medical Referee. Please read the following instructions - If you have answered 'Yes' to any question on page 1 or if you are unsure on any area, you should seek advice from a UKDMC Medical Referee. From a telephone call or email enquiry, the UKDMC Medical Referee may only need to sign Page 3 without the need for an examination. Please take a copy of this form and send the original to the UKDMC Medical Referee, by post or email as arranged together with the **required fee and a stamped self-addressed envelope**. When returned to you, hand a copy of Page 3 to your Diving Officer or equivalent and retain the original as explained below. The UKDMC Medical Referee may require a statement from your GP or any specialist and/or need to see you for an examination. If an examination is required and you are found fit to dive, the UKDMC Medical Referee will also complete page 3 with an expiry date or a statement that further medical assessment is not required unless you develop a new medical problem. As above hand a copy of Page 3 to your Diving Officer or equivalent and retain the original with your Qualification Record Logbook. **You need to review the declaration each year to check there is no new problem and if not take a copy of Page 3, initial and date the small box confirming this and give this copy to your Diving Officer or equivalent. Keep the original Page 3 to review and initial and date each year until the certificate expires or you develop a new medical problem or require new medication at which point you need to contact a UKDMC Medical Referee.**

Please copy only page 3 to your Branch/Club

Recreational Medical Certificate

For completion by a UKDMC Medical Referee only

If you disagree with the UKDMC Medical Referee's decision and this is not resolvable with discussion you may contact the UKDMC directly via the secretary at ukdmc.org

a. In light of my assessment I hereby confirm I have not identified any medical condition that I consider incompatible with recreational diving (delete if N/A).

With the following restrictions if relevant

.....

.....

.....

.....

b. Unless there is a change in the applicant's medical condition or medication/treatment, they need not submit their medical declaration form to a UKDMC Medical Referee:

Indefinitely **or for** **years**

The diver should save a copy of this form & initial & date here to confirm there has been no change in their medical condition or treatment since the Referee signed this form:

Initial									
Date:									

c. In light of my assessment the diver is NOT fit to dive (delete if N/A)

Signature of UKDMC Medical Referee:

Print Name:

Date:

GMC number:

Referee stamp:

Any change in health must be declared as this may affect your fitness to dive. A copy of this completed certificate must be kept by the diver's Branch/Club during the period of validity.

Please copy only this page to your Branch/Club

Guidance on Return to Recreational Diving After COVID-19– Revision 1.1

Table 1 gives the minimum time from recovery of symptoms of COVID-19 before a recreational diver should consider returning to diving. The advice for divers who had no symptoms at all (asymptomatic) throughout their illness or had mild symptoms will also depend on the total score from Table 2.

Table 1

COVID-19 status	Minimum recovery time (with no symptoms) before diving can resume	Table 2 total score	Assessment by UKDMC Medical Referee required
Previously asymptomatic and tested positive for coronavirus.	1 month	4 to 5	No
		0 to 3	Yes
Previously had mild symptoms that recovered completely within a week. Back to your usual levels of fitness. NOTE: Symptoms are mild if they are relatively minor (no shortness of breath), self-limiting and resolve within 7 days.	1 month	4 to 5	No
		0 to 3	Yes
Previously had moderate symptoms. Back to your usual levels of fitness. NOTE: Symptoms are moderate if they are more than mild but not severe enough to require hospitalisation.	2 months	Any	Yes
Previously had severe symptoms requiring hospitalisation. Back to your usual levels of fitness. NOTE: Symptoms are severe where an individual requires hospitalisation, for example, because of serious respiratory problems resulting from COVID-19.	3 months	Any	Yes

Table 2

Factor	Score
Can answer “No” to questions 1 to 5 and 7 to 23 on the current Recreational Diving Medical Declaration. ADD 2 POINTS	
Age less than 45 OR Received a full primary course (eg 2 doses of Pfizer, 2 doses of Astra Zeneca, 1 dose of Janssen) of any COVID-19 vaccine approved by UK Government (https://www.gov.uk/guidance/countries-with-approved-covid-19-vaccination-programmes-and-proof-of-vaccination) at least 2 weeks before first symptoms or diagnosis of COVID-19. ADD 1 POINT	
Physical fitness (see standards below *) for ‘GOOD’ ADD 2 POINTS for ‘SATISFACTORY’ ADD 1 POINT	
TOTAL	

*A recreational diver with a satisfactory standard of physical fitness can run 1.5 miles / 2.4 km in 20 minutes 30 seconds, or complete other exercise equivalent to a VO₂ Max of 7 METS (24.5 ml / kg /min)

*A recreational diver with a good standard of physical fitness can run 1.5 miles / 2.4 km in 12 minutes 30 seconds, or complete other exercise equivalent to a VO₂ Max of 11.4 METS (40 ml / kg /min)

Any diver requiring assessment for fitness to dive or has any queries with regard to the medical implications of COVID-19 on diving please contact a UKDMC Medical Referee listed at www.ukdmc.org/medical-referees/

COVID-19, and the information about it, is constantly changing, hence this advice may be amended as more evidence becomes available.
